

Information only, no action required. UHCCP has identified a processing issue impacting some corrected claims submissions. The system is applying initial timely filing rules to corrected claims for certain scenarios. A temporary process is in place to identify claims that are set to deny for this reason and allow for manual overrides before it is sent to the providers. As an additional mitigation, we are proactively identifying incorrect denials if any fall out and reprocessing those. Providers will not need to initiate an appeal or dispute.
