

**An Important Message from  
The Texas Health and Human Services Commission (HHSC)**

**Change in Preferred Drug List Status for Generic Sildenafil Oral  
Suspension Takes Effect Sept. 25**

**Background:**

The drug manufacturer discontinued the brand name Revatio oral suspension products on Aug. 16, 2024. In response, the Texas Health and Human Services Commission removed the non-preferred status from the generic sildenafil oral suspension products on the preferred drug list (PDL). The preferred status of brand name Revatio oral suspension products will not change, allowing pharmacies to use the existing stock of these medications.

**Key Details:**

HHSC removed the non-preferred status for the following drugs in the table below, effective Sept. 25, 2024. These changes allow providers to prescribe the authorized generic sildenafil oral suspension products without requiring a PDL prior authorization and continue access to necessary medication for members.
