

**An Important Message from  
The Texas Health and Human Services Commission (HHSC)**

**Removal of Liraglutide from Medicaid, CHIP Formularies,  
as of June 12, 2026**

**Background:**

VDP added Liraglutide 18mg/3ml (NDC 69097-0910-55) in error to the provisional and standard Medicaid and CHIP formularies.

**Key Details:**

Due to the provisional coverage error, VDP added the drug to the provisional Medicaid and CHIP formularies on May 18, 2026, and terminated it on June 8, 2026. VDP then added the drug to the standard Medicaid and CHIP formularies on June 9, 2026. As a result, HHSC will remove the drug from the standard Medicaid and CHIP formularies on June 12, 2026. The update will appear on the MCO daily formulary file.
