

UnitedHealthcare Commercial Reimbursement Policy Update Bulletin: July 2023

New and revised		
Policy Title	Effective Date	Policy Summary
Molecular Pathology Policy, Professional and Facility (Reminder)	August 1, 2023	<ul style="list-style-type: none"> Effective with dates of service on or after August 1, 2023, UnitedHealthcare will revise the Molecular Pathology Policy, Professional. The updated reimbursement policy requirements will apply to both professional and facility claims, and the policy name will be updated to Molecular Pathology Policy, Professional and Facility. The policy will no longer require the submission of a unique test ID obtained through the Genetic Test Registry (GTR). The policy will require the submission of a DEX Z- code™ which would be obtained from the Palmetto DEX Registry. The registry can be found on www.dexzcodes.com. Claims for molecular pathology services will be denied if the DEX Z- code™ information is missing, invalid, or does not match the service represented by the CPT code reported on the claim. Claims denied for missing or invalid information may be resubmitted with the required information. The Palmetto DEX Z- code™ should be reported in Loop 2400 or SV-101-7 for professional electronic claims and in box 19 for paper claims. Facility claims should be reported in Loop 2400 or SV-202-7.

Note: The absence of a policy does not automatically indicate or imply coverage. As always, coverage for a health service must be determined in accordance with the member’s benefit plan and any applicable federal or state regulatory requirements.
