Policy

Overview

This policy identifies circumstances in which UnitedHealthcare Community Plan will reimburse physicians or other qualified health care professionals for audiologic/vestibular function testing to identify problems with balance or hearing.

Reimbursement Guidelines

UnitedHealthcare Community Plan reimburses for the audiologic/vestibular function testing CPT codes in the table below when one of the International Classification of Diseases, 10th Revision (ICD-10) diagnosis codes are listed on a claim denoting a problem associated with either balance or hearing. UnitedHealthcare Community Plan will not reimburse when the treatment rendered is without inclusion of one of the ICD-10 diagnosis codes on the claim accurately reflecting the member's condition (See the ICD10 list in the Attachments section below).

The procedure to diagnosis list was first derived by identifying areas of convergence across Center for Medicare and Medicaid Services (CMS) Local Coverage Determinations (LCD) and information received from various specialty societies.
