Purpose

To outline the process and credentialing guidelines for radiologists and cardiologists interested in participating in the eviCore healthcare Network for Oxford, a United Healthcare Company.

Policy

Oxford has engaged eviCore healthcare (eviCore) to perform credentialing as well as quality and equipment review of outpatient diagnostic radiology centers who participate or wish to participate in the Oxford network. The minimum standards for consideration into the Oxford network can be found by clicking *Network Standards* on the lower left-hand side of the eviCore page at <https://www.evicore.com/pages/providerlogin.aspx>.

Radiology centers in New York (NY) and New Jersey (NJ) who are interested in participating in the Oxford network and radiology centers that already participate in the Oxford network and want to add a modality to their practice are required to email the eviCore Credentialing Department at Credentialing@evicore.com stating the nature of the request along with the name, address and contact email for facility. Credentials to access the online facility application through App Central will then be forwarded to the requestor via email.

Exception: Radiology centers performing outpatient radiology imaging studies in Connecticut (CT) are excluded from the above credentialing requirements.

Interpreting radiologists at facilities that are applying for a contract who are not currently credentialed by eviCore will need to complete a physician application and complete the physician credentialing process. Physician applications are also obtained by contacting Credentialing@eviCore.com.
